MTH 172 – Calculus II  
Fall 2007

Instructor: Carol Overdeep  
Office: OM 429
Email: coverdeep@stmartin.edu  
Phone: (360) 438-4378
Office Hours: MWF 10–11, MW 2–3; TTh 1–3; by appointment, or drop in
Webpage: http://homepages.stmartin.edu/fac_staff/coverdeep/

Other: Coursepack of class notes available in the bookstore

Course Prerequisite: MTH 171 with a C− or better

Course Objectives:

♦ Complete the mathematical foundation for further study in mathematics, basic sciences, or engineering.
♦ Provide a thorough introduction to the theory and applications of integral calculus.
♦ Develop new problem solving skills and enhance critical thinking abilities.

Exams and Grading:

♦ Homework 20% IMPORTANT: NO EXTRA CREDIT
♦ Exams 1/2/3 45% (15% each)
♦ Gateway Exam 10% Friday, 11/2/07 (subject to change)
♦ Additional Problems 5%
♦ Final 20% Monday, 12/10/07, 10:15–12:15

Homework

♦ Homework may be done in groups (each student must hand in an assignment).
♦ Homework may be an in-class assignment. These can not be made up.
♦ Assigned problems are on a separate handout as well as on my webpage.
♦ Due dates will be announced in class.
♦ You must show your work to receive full credit (where applicable).
♦ Late homework will be penalized/not accepted.
  o Homework will be considered late if not in my office by 3:00 on the due date unless prior arrangements have been made.
  o Homework will be accepted until the assignment is returned to the class—but it will be penalized unless prior arrangements have been made.

Exams 1/2/3:

♦ Exams will have two parts: sans calculator and with calculator.
♦ Make-up exams will not be possible without prior arrangements—and the reason for missing an exam must be compelling and perhaps more importantly, documented.
♦ Exams will resemble homework problems and problems done in class.
Gateway Exam:
- Will consist of basic problems solving integrals without a graphing calculator. The exam will be approximately 30 minutes in length.
- Like Exams 1/2/3, a make-up for the Gateway will not be possible without prior arrangements—and the reason for missing the exam must be compelling and documented.
- You must score 75 or better on the Gateway to pass MTH 172.
- Students who do not pass will have two additional attempts outside of class.
- Passing the Gateway does not guarantee passing the class.

Additional Problems
- The additional assigned problems consist of two types of problems: first, the problems listed at the bottom of the homework handout; and second, any uncollected assignments (these will be announced in class).
- For full credit, the problems must be turned in on Exam 1/2/3 days before you take the exam.
- The grade will be based on completeness and level of effort.
- Rationale: one learns mathematics by doing mathematics.

Final Exam:
- The final will have two parts like the in-class exams.
- Will be cumulative.

General Philosophy/Attendance:
- College prepares you for a professional position.
- In the working world, you are responsible for your career and you are accountable for your decisions. For example, class attendance is expected (just as you are expected to go to work), but not required.
