Textbook: Probability and Statistics for Engineer and Scientists, 8th Edition,
Walpole, Myers, Myers, and Ye, Pearson/Prentice Hall 2007

Other: Coursepack of class notes available in the bookstore

Course Prerequisite: MTH 172 with a C– or better

Course Objectives:
◊ Provide a thorough introduction to the theory and applications of probability and statistics.
◊ Develop an appreciation for the use of statistics in decision making as well as an appreciation of its limitations.
◊ Develop new problem solving skills and enhance critical thinking abilities.

Exams and Grading:
◊ Homework 25%  IMPORTANT: NO EXTRA CREDIT
◊ Integration Proficiency 10%
◊ Exams 1/2/3 45%  (15% each)
◊ Final 20%  Tuesday, 12/15/09, 10:15–12:15

Homework:
◊ Homework may be done in groups (each student must hand in an assignment).
◊ Homework may be an in-class assignment. These can not be made up.
◊ Assigned problems are on a separate handout as well as on my webpage.
◊ Due dates will be announced in class.
◊ You must show your work to receive full credit (where applicable).
◊ Late homework will be penalized/not accepted.
  ◦ Homework will be considered late if not in my office by 3:00 on the due date unless prior arrangements have been made.
  ◦ Homework will be accepted until the assignment is returned to the class—but it will be penalized unless prior arrangements have been made.

Exams 1/2/3:
◊ Make-up exams will not be possible without prior arrangements—and the reason for missing an exam must be compelling and perhaps more importantly, documented.
◊ Exams will resemble homework problems and problems done in class.
Integration Proficiency:

♦ Integration plays a key role starting in §3.3.
♦ Until we reach §3.3, you will often have 1–3 integrals to do each night.
♦ There may or may not be an integration quiz right before §3.3.

Final Exam:

♦ The final will be closed book (may allow a notecard).
♦ Will be cumulative.

General Philosophy/Attendance:

♦ College prepares you for a professional position.
♦ In the working world, you are responsible for your career and you are accountable for your decisions. For example, class attendance is expected (just as you are expected to go to work), but not required.

Important Dates:
